All Aboard For "The Ghost Train"

A thrilling ride is in store for those who have purchased their tickets to board the phantom locomotive due to arrive at Phelps School at 8:15 p.m. this Friday and Saturday. Named, "The Ghost Train," by Arnold Ridley, this weird train is engineered by the Chalkliners who are making the run across the Maine-Canadian border for the benefit of the Agawam Ambulance Fund. Chief Engineer, Doreen J. Deliso, is responsible for the passengers, Roy Durfee, Eleanor Piccin, Judy Burr, Cliff Trent, Roger Talbot, and Hazel Prior; also questionable characters, Ray Simmons, Jim Donelan, and Alice Jones and amongst them all, Everett Hodge and Don Withee. The crew working to assure an interesting trip are, Althea Durfee, Diane Washington, Dot Aldrich, Charles Deliso, Fred Reynolds, Ben Fish, Jack Quinn, Marge Pelley, Ann Fish, Gloria Manning, Blanche Withee, Florence Ingalls, Raye Boden, Pat Stebbins, Bob Jones, Bob Fish, Duane Stebbins, Al Ingalls, Betty Wiley and Phyllis Granger.

There will be a rare amount of humor to enjoy along with creeping mystery as it spins along at a dizzy pace. The trip was made successfully for an extended time from London and New York, but it is expected that this will be the only run from this area with the Chalkliners at the helm.

Ticket Agents are the Chalkliners and the Jaycees who urge immediate reservations so that no one will miss this fascinating mystery ride or the opportunity to share in the purchase of a most needed ambulance. Passengers will use the Main St. entrance; choice of seats will be for those boarding early; snacks will be available between stops . . . Pleasant journey!

A Memorial To Richard (Dickie) Anderson

A special portion of the Worship Service of the Valley Community Church meeting in Old Storrowton Church in West Springfield was devoted as a memorial to Richard (Dickie) Anderson whose life was tragically lost in an automobile accident.

Rev. Frank E. Dunn, pastor of the Church, presented to the Congregation a Bible donated by friends of the Anderson family in their son's name. The ascription page read:

"This Word of God is a living memorial to RICHARD (DICKIE) ANDERSON, 1947-1964, a beloved son of Valley Community Church. October 11, 1964."

Rev. Dunn then read the following memorial statement:

"To Richard (Dickie) Anderson whose life was but a short span of years we memorialize him through this Bible, the Word of God, which must inevitably be the sole and final resource of all mankind.

"He came into a world that is neither settled nor secure, he lived with his own and his fellows, loved and respected; recognized as an American boy who typifies what is good, wholesome, fun-loving, responsible and substantial; he walked his few years and gained for himself many friends, the love not only of his family but of others, and his passing reemphasizes that spiritual heritage which belongs to every boy and girl in this nation and the world.

"It is fitting that such a life be memorialized by this Book, the Word of God. As we read this Word from Sunday to Sunday let us remind ourselves that we are here for God's purposes, not our own, and that we owe to Him our very lives, that the ultimate life we shall live in the world to come is of our own making here and now."

The brief service was concluded with prayer.

Quick, Make Some Shade!

PALM SPRINGS, Calif. — A rookie fireman fought a fire at this desert community by casting his shadow. It happened this way:

Sunlight fell on two statues holding small mirrors in the window of a lamp shop. The mirrored light focused on some carpeting, which began to smolder.

A passer-by called firemen.

They reached the scene and decided that, instead of breaking the window, they would telephone the owner to unlock the door.

But how could they stop the smoldering in the meantime?

Fireman Robert McInelly was assigned to stand between the sun and the mirrors — and make shade.

The key arrived, the smoldering carpet was extinguished, and Mr. McInelly was released for other duties.

Road Crew in 1900

By Edith LaFrancis

This picture shows a road crew and the type of equipment used in 1900.

The custom of holding town meetings in April was due to the condition of the roads. It was necessary to wait until the snow had melted and the mud had settled enough to permit the voters to get there.

The first state road in town, of water-bound macadam was under construction in 1905, extending from South End Bridge to the State line.

Wind Snatches Drive-In Deposit

Birmingham, Ala.

A sudden gust of wind sent a bank customer at a drive-in window and would-be helpers in hot pursuit of a $2,000 check blown out of the customer's hand.

The valuable piece of paper—pushed by 40 mile-an-hour winds—was outdistancing its pursuers when a policeman, E. E. Shaddix, pounced on it.

Parcel Post Hints

"Please pack parcels solidly," was the plea of Acting Postmaster Robert DeForge.

The head of free "local" and "out-of-town" separation bands will help move the mails faster. The bands are available at the Post Office or from most letter carriers.

December 5 is the suggested deadline for mailing out-of-town packages. "Don't worry about the parcels being delivered too early, just mark 'Don't Open Until Chistmas!' on the front," Mr. DeForge said.

A tightly stuffed package, with nothing rattling around inside, will have less chance of being damaged in transit, he noted.

"When packing a gift, remember that the package you send may be shipped on the bottom of a mail sack and there may be heavier packages on top. Among the relatively few packages that are damaged in transit, improper packaging is the greatest factor," the postmaster cautioned.

Just to be on the safe side, the postmaster suggests that all packages be insured.

Mr. DeForge noted that poor packaging and addresses which are either incorrect or not legible are responsible for the non-delivery of about half a million parcels each year. If the return address is incorrect or illegible and the package cannot be returned, it will be saved for 90 days. If unclaimed, the parcel is usually lost to the sender or intended recipient. Such parcels wind up in public auctions held at 15 major post offices across the nation.

All parcels should be addressed on only one side and should also have the address written on the inside of the package in case the exterior wrapping should come off.

Mr. DeForge emphasized that ZIP Coding the addresses on parcels and letter helps insure against loss due to improper addressing. Since each area of the country has an individual ZIP Code, there is little chance of a piece of mail destined for one city being directed to a city which may have a similar name. For example, there are at least 26 possible areas around the country which would have Springfield in the address. Use of the proper ZIP Code would send the mail to the right post office.

"We are asking everyone to be especially cooperative this holiday season. During the peak of the 'rush' we expect that seven billion pieces of mail will flow through the system and it look as if 12 billion pieces will be delivered during the entire month of December. That's quite a bit of mail," the postmaster said.

Tires are perhaps the most important factor in safe driving at turnpike speeds, according to ALA service experts.

Assuming your tires are sound and have sufficient tread, make sure they have the recommended pressure.

Heat is a prime cause of tire damage and under-inflation can boost tire temperatures to an excessive level. The softer a tire, the more it flexes. Constant flexing builds tire heat.

SPORTSMEN'S CORNER

By Bill Chiba

Next Monday, Dec. 7th, the season for hunting deer in Massachusetts commences at 6 a.m. and ends Saturday the 12th at 5 p.m. Shotguns with loads of buckshot or slugs are the only firearms legal for hunting deer. The bow and arrow may be used if you so desire. The same regulations pertain to this deer week as they did in the pre-season concerning the use of the bow. The duck season is open through Dec. 26 . . . the special extension on the deer archery season opens Dec. 14 for a run through the 18th of the month.

It looks like the bow hunters in the state of Mass. are going to have to go on the defensive once again. When Mr. McLaughlin was director of the Fish and Game Division, the bow hunters met many times with him and a new friendship was born. He was shown that the bow hunter is truly a sportsmen in every aspect of the word and more than willing to do his part in the general overall picture of conservation in the state. The bow hunter asked for the charging of the one dollar fee for bow hunting in the preseason. The archers as well as the director wanted to know how many hunters would be chasing the deer in the state with the bent stick.

We now have a new director of the fish and game, and it certainly appears that he has a distorted picture of the bow hunter. His decision to extend the archery deer season after the gun season, when there was two weeks remaining before the gun season is very puzzling. The director, Jim Shepard, was contacted by Rep. Barus and questioned as to why he decided on such an unfair action. Mr. Shepard told the representative that not one bow hunter had contacted him concerning the re-opening of the season. Why should he expect to hear from the bow hunter? After all he is the director of the division and supposedly committed to look out for all the sportsmen interest, not just for a few that call him and selfishly want this or that. He also told the General Court member that gun hunters called him and were against the bow hunter being in the woods prior to the gun season, yet the same gun hunters had no objection to rabbit hunters and bird hunters tramping through deer cover in search of game. Just does not add up! The remark that the bow hunter could shoot the wounded deer left in the woods after the gun season leaves a foul taste in our mouth. This remark assuredly shows the contempt that Mr. Shepard feels toward bow hunting.

What bow hunter wants to shoot crippled, wounded animals? The bow hunter is after the thrill of meeting the game on his town terms and besting the wily animal in his own back yard. It isn't so much the killing of the deer that is so satisfying to the successful bow hunter, but the knowledge that the hunter was able to get into position, by using his wits, to loose an arrow at the animal and score a hit. This is the true picture of bow hunting. We strongly feel that Mr. Shepard owes the archers in the state an explanation concerning his latest decision on the archery season. One very disturbed archer remarked to this writer, "Two can play politics as well as one . . . and many playing politics can cause havoc."

I hope this table will help the many that have called concerning the live weight and dressed weight of their deer . . . B. C.

Cinema . . .

(Continued From Page 1)

Entering the common lobby and mezzanine art gallery, carpeted in royal blue, patrons of Cinema 1 and 2 are immediately greeted by a floor-to-ceiling graphic art display created by Yale University artist and professor, Norman Ives. Multi-colored panels of various shaped pieces of wood further accent the otherwise off-white interior. Auditorium design includes acoustical walls in grey and seating in pastel green. Specially drafted lounge rocker seats built by American Seating have been installed in staggered rows, each row on an individual stadium riser.

Projection equipment provides for both 70 and 35 mm presentation in the 700 seat house as well as full six-track stereophonic sound and anamorphic facilities for Cinerama shows. The 1100 seat house is equipped for conventional showing of Cinemascope and regular 2-D features. A blanket of low-key background music fills the entire lobby and art gallery area through a set of recessed ceiling speakers. Furniture is by Herman Miller.

Cinema 1 and 2 is the first of a series of six Redstone twin Showcase Cinemas which will be opening within the next eight months.

PROMENADERS

By Al and Elaine Taupier

Last Friday the Promenaders were put through a fast pace of dancing by Dick Steele. He really kept us moving and we had a lot of fun keeping up with him. The temperature was high enough to remind us of summer dancing. Dick also taught a new round dance to those interested in learning. Glad to see more round dancers developing in our club.

The banner dance planned for this weekend is on Friday night, at Holyoke with Bob Paris calling. Hope to see all out dancing with their renewed enthusiasm.

On Dec. 11 we will hold our Christmas dance. Among special features for this evening, will be home baked holiday refreshments in keeping with the different nationalities of our club members. Any member wishing to bake for this party and not yet approached, please do not hesitate to call any member of the executive board and make your specialty known. There will also be two special prizes awarded that evening. All are reminded to bring a 50c gift for a man or woman and so labeled.

Hope to see you dancing before the holiday rush really sets in.

TREE NUTS

Nuts have been known and used for hundreds of years. They have provided food, worked their "magical" charms, and even served as dyes. Housewives in West Virginia, Kentucky and Tennessee, used green butternuts to make a brown dye long before synthetic dyes were known. In the early days of the Civil War, "butternut jeans" became a sort of uniform for large companies of Confederate soldiers from these mountain areas.

Privacy is just one of the wonderful things about an extension phone

Why have to shout over the noise of TV? Or shoo other people out of the room? An extension phone lets you call in quiet privacy. Saves a lot of running around the house. And it's a reassuring presence on your bedside table. A second phone costs only a fraction more a month than the first, yet doubles your telephone convenience. Call your Telephone Business Office. You'll find the number in the front of your directory.

Announce 'Y' Name Contest Winners

James Loomis, chairman of the Agawam Community YMCA Camp Committee, announced that final decisions had been reached on winners of the Camp Name Contest. All campers who attended the "Y" camp program this past summer were eligible to enter.

First place was awarded to Miss Susan Brown, 443 North West St., Feeding Hills, for her entry "Camp Mill Brook." One session at the newly named camp next suummer was awarded to Miss Brown.

Second Place winner, Gregory Fox, 218 Riverdale St., West Springfield, was awarded a year's membership to the YMCA and third place went to Robin McLellan, 527 North St., Feeding Hills, who will receive a camp blouse with the new Camp Name imprinted on it. Honorable mention was given to Donald Soden, 103 Lealand Ave., and Susan Wallace, 1162 River Road, both of Agawam.

Loomis also announced that the Board of Directors of the YMCA have decided to adopt Camp Mill Brook as the permanent name for the camp because of its historical and geographical significance. The Old Mill Pond is directly adjacent to the YMCA property and the Mill Brook runs through a portion of the camp.

The Camp Committee has decided to hold another contest to establish a camp design, to be used in conjunction with the new name.

Johnson Awarded Survey Pact

The Board of Selectmen, on the recommendation of the Personnel Board and the Finance Committee, has retained the services of Robert Underwood Johnson of Houston and Johnson, municipal consultants to make a classification and compensation survey of all town employees excepting those under the School and Welfare Departments.

According to the contract with Houston and Johnson, this survey is to be completed within the next eight weeks, in time for inclusion in the warrant for the February town meeting.

Johnson is a former director of administrative services for the city of Pittsfield serving from 1958 to 1964. This summer, he completed a survey for Pittsfield, covering both personnel and administration.

Affiliated with several nationally known consulting firms, Johnson is a partner in Houston and Johnson of New York City and Lenox. He is a native of Pittsfield.
